Structure Damage Reporting

This winter has been particularly hard on everyone, especially structures that are weighed down by the heavy snow load.

The Farm Service Agency is asking for property owners to contact them and report any structure damage they may have on their properties. If you have lost any livestock or feed, please report these items to the Farm Service Agency as well.

It is very important to get an accurate count and an estimate of damages to structures, livestock, and feed. Knowing these damages may help with state and federal disaster funds if any are available.

Damages must also be reported within 30 days of the occurrence.

If you or anyone you know has had damage due to the winter snowfall please have them call 608-685-4454 and talk to a representative from the Farm Service Agency. You may also email the Farm Service Agency at wialma-fsa@one.usda.gov to report any damages.
